Discover the best online blackjack games

Join PlayOJO today and see why online blackjack is still the best loved casino game. Play your cards right in any of these casino games and you'll enjoy blackjack RTPs of over 99%. Live blackjack is taking PlayOJO's world of play by storm, but we're still huge fans of a classic internet blackjack experience run entirely by computer software, too.

European Blackjack Turbo

Play up to three hands of fast online blackjack from just £1 each. European Blackjack is all about speed, with very few bells and whistles, which means you can rattle through the hands as fast as your finger can tap. Beat the dealer to double your money or hit blackjack and get paid 3 to 2.

Live blackjack

Online casino meets real casino with live casino blackjack games from top providers like Evolution Gaming and Pragmatic Play. Test your strategy in style and hang out with other OJOers at our exclusive PlayOJO Live Blackjack table. If a real casino table with friendly dealers and real cards is your thing, this is the blackjack game for you.

American Blackjack Turbo

If you're a big fan of doubling down, try American Blackjack Turbo, the fastest and most exciting blackjack game in town. With doubling allowed on any two cards, this online blackjack game is perfect for experienced real money players.

Blackjack Xchange

Experience this mind-blowing blackjack variant from Slingo Originals. Play this single-hand real money blackjack game with American rules, a stunning RTP and the option to trade in your bad cards in the middle of the hand. Not keen on K-6 against the dealer's nine? Blackjack Online FAQ

What is live dealer blackjack?

How do you play blackjack online?

Do you offer a free blackjack game?

Is card counting allowed at PlayOJO?

Blackjack casinos on the web don’t fear card counting, coz it’s no longer the killer skill it was in the 1970s. We’re happy for you to count cards while you play blackjack, and we even show you how to count cards in our blackjack guide. Card counting is very difficult to learn and execute well, and there's no guarantee you will win at any blackjack site, either. But it's also a great skill to learn while playing online blackjack, and anything that makes playing blackjack an even more interesting challenge is fine by us!
